### Message from the President

The Ohio Valley Camera Club of West Virginia has over fifty years of tradition as a local photography club. The members of the club all share a passion for the art and craft of great photography. The club continues that tradition today by offering its members a place of fellowship, sharing and education.

As a club we are committed to the appreciation of photography and helping members improve their photographic skills while enjoying the works of fellow members. The club continues to offer more to its membership through photo outings, competitions, skills classes and programs.

The OVCC has an email forum where members can share ideas, techniques and have discussions on any number of photographic topics. We also have built a great web site that serves as a central location of club history and activities.

OVCC members share in club photo outings where we travel as a group to experience a photo opportunity together.

Anyone who has an interest in photography should plan to visit our club. We meet on the first and third Thursday of each month at Studio 3 behind the Huntington Museum of Art.
